

Horses

It is estimated that the first domestication of horses was in Central Asia between 3000 and 4000 B.C. They were used for meat and milk. Horses go back to cave drawings though. Cave paintings resemble the modern Przewalski horse. Many horse breeds can be found in North America. See if you can unscramble some of the horse words listed below.

The first letter is capitalized. (1-10 breeds, 11-14 parts, 15-20 riding terms.)

1. ioPtn _____
2. Mgtnaus _____
3. tnieriMau _____
4. iPnat _____
5. nesenTese klarWe _____
6. duhgrootberh _____
7. dbdleedaSr _____
8. uQtrea oyPn _____
9. kcyRo uotiaMn sHroe _____
10. gaorMn _____
11. oHfo _____
12. noannC _____
13. itloNsr _____
14. aMen _____
15. toTr _____
16. oLep _____
17. apollG _____
18. ldSdae _____
19. deBilr _____
20. ptSriur _____

Horses- Key

It is estimated that the first domestication of horses was in Central Asia between 3000 and 4000 B.C. They were used for meat and milk. Horses go back to cave drawings though. Cave paintings resemble the modern Przewalski horse. Many horse breeds can be found in North America. See if you can unscramble some of the horse words listed below.

The first letter is capitalized. (1-10 breeds, 11-14 parts, 15-20 riding terms.)

- | | |
