

## BIRD'S NEST

**Items Needed:** Five balls each of various colors – ex: 5 red, 5 orange, 5 yellow, etc. You will need one set for each team of three people, a bucket for each team, and 2 blindfolds for each team.

Place all the balls in the center of the room. One blindfolded person (#1) is selected to go get the different balls. The person not blindfolded gives the instructions of how to get the balls to the blindfolded person not collecting the balls (#2). That person then tells the other blindfolded person (#1) what to do. Only one ball at a time may be picked up. The object is to collect all 5 balls of their color and put them in the buckets.
